To become certified, the law enforcement agency must meet two mandatory conditions: (1) the agency's use-of-force policies adhere to all applicable federal, state, and local laws and (2) the agency's use-of-force policies prohibit chokeholds except in situations where use of deadly force is allowed by law. The certification

requirement also applies to law enforcement agencies receiving DOJ discretionary grant funding through a subaward. Program Description

Overview

OJP is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats and builds trust between law enforcement and the community.

Through this solicitation, OVC seeks to provide funding to organizations that demonstrate innovative strategies to create, expand, or enhance the use of technology to interact directly with crime victims, improve the quality of services, and improve the accessibility and responsiveness of victim service organizations.

Note: This solicitation has funded national hotlines in the past; however, in fiscal year (FY) 2022, OVC created a separate solicitation titled "Building Capacity of National Crisis Hotlines" that focuses solely on enhancing or expanding the capacity of national hotlines. The FY 2022 Advancing the Use of Technology to Assist Victims of Crime solicitation will focus only on innovative technology solutions.

Statutory Authority

34 U.S.C. § 20103(c)(1)(A)

Specific Information

OVC encourages the use of technology to respond to and expand upon the successful growth in technological capacity and victim services provision. Through this program, OVC will support national-scope and regional initiatives (that can be replicated nationally) to maximize the use of technology to increase access to crime victim services and information about victims' rights, improve the quality of services, and strengthen the responsiveness of victim service organizations.

Funding under this initiative may support: technology development and maintenance to facilitate efficient service delivery and/or communication; staff required to operate, update, and maintain the proposed technology platform or service; training and technical assistance on the purpose and use of the technology (including outreach and publicity activities); and staff engaged in coalition-building activities regarding the use of technology. This funding should not supplant or duplicate currently funded initiatives in these areas. Applicants who propose to use this funding for ongoing, rather than new, initiatives must specify how these funds would be used to *expand or enhance* current services rather than duplicate or just continue existing efforts.

Applicants are encouraged to focus on, but are not limited to applications that focus on—

1. addressing online gender-based abuse and harassment, which is defined as "actions by one or more people that harm others based on their sexual or gender identity or enforce harmful gender norms that are carried out using the internet and/or mobile technology and includes stalking, bullying, sex-based harassment, defamation, hate speech, exploitation, and gender trolling," according to the International Center for Research on Women's publication titled, [Technology-Facilitated GBV: What is it, and How do we measure it?](#);
2. offering programming or services that respond to online and online-facilitated gender-based violence; and
3. using technology to make services safe and more accessible, and that reach underserved communities.

Goals, Objectives, Deliverables, and Timeline

Goals

The goals of this program are to increase access to victim services and build the capacity of victim services providers to meet the needs of crime survivors through technological innovation.

Objectives

Applicants will achieve these goals through the following objectives:

1. Conduct strategic planning activities to identify gaps in technology that can be enhanced by building the organization's technological capacity to ensure greater access to victim services that are sustainable, secure, and safe.
2. Implement technological enhancements to strengthen the organization's response to crime victims and that will ensure high-quality services that are centered in victim safety, confidentiality, and privacy.
3. Prepare and support staff through training on the technology platform and the organization's confidentiality and privacy guidelines, appropriate to the services provided and populations served.
4. Collaborate with local, state, and community stakeholders to share information, resources, and lessons learned.
5. Conduct training and public awareness activities for professionals and community members to ensure appropriate education and awareness of the program.
6. Perform data collection and participate in evaluation activities to determine the effectiveness of the program and whether it is meeting stated goals and objectives.

Deliverables

The deliverables can be web applications (apps), management information systems, interactive websites, or any improvement or enhancement that uses technology to provide the service or support the program. Other deliverables include the following:

- Criteria to best determine strategies and effective collaborative models for planning, implementing, and evaluating the proposed technological innovations in the community, state, or region.
- Development of a staff training plan.
- Development of outreach and public awareness strategies.
- Development of a training and technical assistance plan for participating organizations.
- Development of an evaluation plan to measure project effectiveness in achieving the project goals, objectives, and identified outcomes.
- Signed Letters of Intent or Memoranda of Understanding (MOU) with key implementation partners.

The Goals, Objectives, and Deliverables are directly related to the performance measures that show the completed work's results, as discussed in the Application and Submission Information section.

Evidence-Based Programs or Practices

OJP strongly encourages the use of data and evidence in policymaking and program development for criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the OJP Grant Application Resource Guide.

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the OJP Grant Application Resource Guide section entitled "Information Regarding Potential Evaluation of Programs and Activities."

OJP Priority Areas

The Department of Justice is committed to advancing work that promotes civil rights and racial equity, increases access to justice, supports crime victims and individuals impacted by the justice system, strengthens community safety and protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

1. Priority Considerations Supporting Executive Order 13985, *Advancing Racial Equity and Support for Underserved Communities Through the Federal Government*

Consistent with this Executive Order, the term "underserved community" refers to a population sharing a particular characteristic, as well as a geographic community, that has been systematically denied a full opportunity to participate in aspects of economic, social, and civic life or whose members have been historically underserved, marginalized, and adversely affected by inequality. Such communities include, among others, Black people, Hispanics and Latino/a/e people, Native American and other Indigenous peoples

of North America (including Alaska Natives, Eskimos, and Aleuts), Asian Americans, Native Hawaiians, and Pacific Islanders.

In support of Executive Order 13985, OJP will:

A. Give priority consideration to applications that include project(s) that will promote racial equity and the removal of barriers to access and opportunity for communities that have been historically underserved, marginalized, and adversely affected by inequality, when making award decisions.
To receive this consideration, the applicant must describe how the proposed project(s) will address potential inequities and barriers to equal opportunity, and/or contribute to greater access to services for underserved and historically marginalized populations.

B. Give priority consideration to applicants that can demonstrate that their capabilities and competencies for implementing their proposed project(s) are enhanced because the applicant (or at least one proposed subrecipient that will receive at least 30% of the requested award funding, as demonstrated in the Budget Worksheet and Budget Narrative) identifies as a culturally specific organization. To receive this additional priority consideration, applicants must describe how being a culturally specific organization (or funding the culturally specific subrecipient organization(s)) will enhance their ability to implement the proposed project(s) and should also specify which culturally specific populations are intended or expected to be served or to have their needs addressed under the proposed project(s).

Culturally specific organizations are defined for purposes of this solicitation as private nonprofit or tribal organizations whose primary purpose as a whole is to provide culturally specific services to, among others, Black people, Hispanics and Latino/a/e people, Native American and other Indigenous peoples of North America (including Alaska Natives, Eskimos, and Aleuts), Asian Americans, Native Hawaiians, and/or Pacific Islanders.

Note: Addressing these priority areas is one of many factors that OJP considers in making funding decisions. Receiving priority consideration for one or more priority areas is not a guarantee of an award

Other important considerations for OVC include geographic diversity, strategic priorities (specifically including, but not limited to, the identified priority areas), available funding, past performance, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet the basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria listed above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting the peer review. Although specific requirements may vary, the following are common requirements applicable to all OJP solicitations:

- The application must be submitted by an eligible type of applicant.

- The application must request funding within programmatic funding constraints (if applicable).

- The application must be responsive to the scope of the solicitation.

- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information

related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant with one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may consider not only peer review ratings and OVC recommendations, but also other factors as indicated in this section.
