

Report on the OVC Fiscal Year 2024 **Crime Victims Fund Tribal Set-Aside Program**

INTRODUCTION

The U.S. Department of Justice (the Department) has a long-standing commitment to improve services for victims of crime in American Indian and Alaska Native communities. This report by the Department’s Office for Victims of Crime (OVC) provides a comprehensive review of Tribal Set-Aside funds obligated in Fiscal Year (FY) 2024. It addresses enhancements to the Tribal Set-Aside based on Tribal leaders’ recommendations and testimonies from OVC’s annual government-to-government consultations with them. In October 2024, OVC will again consult with Tribal leaders about the funding and administration of the Tribal Set-Aside Program. Information on the FY 2025 OVC Tribal Consultation is available [here](#).

OVERVIEW OF THE OVC TRIBAL SET-ASIDE PROGRAM

A 1988 amendment to the Victims of Crime Act of 1984 (VOCA) created OVC as part of the Department’s Office of Justice Programs. An important part of OVC’s mission is to administer grant awards funded by the Crime Victims Fund (CVF), which is financed by fines and penalties from convictions in federal cases, not from tax dollars. Each year, Congress authorizes OVC to use the CVF to support grant programs for victim services. The total amount of funds authorized to be spent by OVC is referred to as “the cap.” In the FY 2018 budget, Congress created the first Tribal Victim Services Set-Aside from the CVF cap by making 3 percent of the funds “available to the Office for Victims of Crime for grants, consistent with the requirements of the Victims of Crime Act (VOCA), to Indian Tribes to improve services for victims of crime.”

Since FY 2018, the OVC Tribal Division has administered the Tribal Set-Aside to fund the Tribal Victim Services Set-Aside Formula Grant Program (TVSSA Program) and other Tribal programs and initiatives. In FYs 2018 and 2019, OVC administered the set-aside funds through a competitive discretionary grant programs to all eligible applicants, which included federally recognized Indian Tribal governments, legal entities acting as the authorized designees of federally recognized Indian Tribes, and Tribal consortia made up of two or more federally recognized Indian Tribes.

In FY 2020, Congress authorized a 5 percent Tribal Set-Aside from the CVF cap. Based on feedback received from Tribal leaders and representatives at consultations, Federal Advisory committee meetings, and listening sessions, OVC collaborated with the Bureau of Justice Statistics to create a population-based formula for distributing TVSSA Program funds noncompetitively starting in FY 2020. With the formula, OVC introduced a two-phase application

process. In phase one, all eligible applicants submit a declaration (the Population Certification) of the size of the population they plan to serve with their TVSSA Program funding. OVC uses the Population Certification data to allocate the set-aside funds among all eligible applicants via the formula. In phase two, Tribes that submitted Population Certificates are invited to submit full applications, including a program narrative and budget detailing their plans to use their allocation amount within a period of up to 60 months. This process is outlined in appendix A. The remainder of this report provides a detailed accounting on the administration of the TVSSA Program in FY 2024. All previous TVSSA Program Annual Reports can be found on [OVC's website](#).

FY 2024 TVSSA PROGRAM

Congress authorized a 5 percent Tribal Set-Aside from the CVF cap in FY 2024, resulting in a total set-aside of \$67.65 million. OVC allocated more than \$55.6 million of this total through the TVSSA Program. The two-phase application process used to fund awards is outlined in a flow chart in appendix A.

In phase one, OVC received Population Certificates from 250 eligible applicants demonstrating their intent to apply for a new Tribal Set-Aside grant award. The original deadline for these declarations was February 9, 2024, however, OVC extended the deadline to February 20, 2024, to accommodate late submissions. OVC applied a minimum award amount of \$177,413 to each applicant, and then applied the same population-based formula that was used in FY 2023 to allocate the FY 2024 funds. On April 23, 2024, OVC notified the 250 applicants of their FY 2024 formula allocations and invited each applicant to complete phase two of the application process, which is to submit a noncompetitive application into the Department's online JustGrants system by June 28, 2024, to receive a new award. (See appendix B for a list of all applicants that submitted Population Certifications and the original allocation amounts for each.)

Because some applicants had difficulty submitting their applications by the deadline, OVC extended the deadline to July 12, 2014. Phase two of the application process was open for 80 days and, within that time, OVC provided technical assistance to applicants as described in the next section of this report. Of the 250 Tribes that originally planned to apply, 50 did not submit full applications by the deadline and one Tribe was not required to submit an application in JustGrants because they elected to transfer their TVSSA Program award to the Department of the Interior under the 477 Program. Twelve Tribes decided to withdraw from the FY 2024 application process, 24 Tribes missed the original Grants.gov deadline, and 14 Tribes missed the final JustGrants deadline. A total of 199 applications were received and awarded TVSSA Program funding. This represents a slight decrease from the 212 applications received in FY 2023. In recent years, Tribes expressed varied reasons for not applying for the funding. Some of the Tribes realized new funding was not immediately needed to continue their victim service programs, and others opted to apply as a member of a consortium. Some Tribes indicated turnover in staff or Tribal leadership and insufficient time to complete the application as other reasons for not requesting an award. Of the applications received, 10 were from Tribes that had not previously participated in the set-aside program. Nine of the new applications were from Tribes in Alaska and one was from Oklahoma.

Because OVC received fewer applications than expected, it redistributed more than \$8.3 million of unclaimed set-aside funds to the remaining Tribes by adding an equal amount of funds (\$41,989) to each award. A total of \$54,926,404 was awarded under the FY 2024 TVSSA Program. (See appendix C for a list of all awards made and final allocation amounts.) In FY 2024,

after the majority of unclaimed funds were redistributed, award amounts ranged from \$219,402 to \$441,989. (See appendix D for the FY 2024 formula allocations and number of applicants at each tier.) OVC allocated the remaining amount of the TVSSA Program funds, \$1,423,906, to support other Tribal programs and activities as listed in appendix E. In FY 2024, OVC committed all but \$118 of the total Tribal Set-Aside funding from the CVF.

FY 2024 TVSSA PROGRAM ACCOMPLISHMENTS

Growing Portfolio of TVSSA Program Grantees and Awards

Between FY 2018 and FY 2024, OVC has made 1,229 awards with funding from the Tribal Set-Aside. This funding has supported more than 355 different federally recognized Tribes, legally designated designees, and entities representing Tribal consortia.

In FY 2024, OVC grant managers supported 315 Tribal grantees (distinct entities) across 701 open active awards, not including the 199 new awards made at the end of the fiscal year. OVC's analysis of the 315 current TVSSA Program grantees found the following:

- 28 percent of Tribes (89 grantees) had two active TVSSA Program awards.
- 17 percent of Tribes (54 grantees) had three active TVSSA Program awards.
- 18 percent of Tribes (56 grantees) had four or more active TVSSA Program awards.
- More than 50 percent of Tribes have two or more active TVSSA Program awards.

Application Assistance: In-Person and Virtual Interviews

In FY 2024, applicants were again provided the option of completing the proposal narrative portion of their application in one of three ways: (1) a traditional typed narrative not to exceed 20 pages; (2) a TVSSA Program Narrative Checklist form that was provided within the solicitation; or (3) participation in an interview with OVC staff who would document the information about the planned project into the checklist form, which was then provided to grantees to submit with their application. OVC staff, supported by technical assistance providers, conducted 47 virtual interviews with applicants using the required application checklist. In addition, five OVC staff traveled to multiple cities in Alaska to conduct in-person interviews with 31 applicants to complete their checklists. In total, OVC staff conducted 78 virtual and in-person interviews.

Application Assistance: Webinars

OVC staff hosted four pre-application webinars to provide guidance and technical assistance on the TVSSA Program application requirements and submission process. OVC [posted the webinar recordings, presentation materials, and transcripts](#) on its website.

Application Assistance: Construction

In FY 2024, OVC updated the Construction and Renovation Efforts Questionnaire to assist TVSSA applicants in articulating their plans for construction projects and expedite referrals for specialized technical assistance and the approval process to begin their renovation or construction

activities. During in-person application interviews conducted in Alaska, OVC funded construction technical assistance contractors (Clark Group and Blue Trident) provided onsite assistance with completing this form. OVC received new applications from 19 Tribes interested in using FY 2024 funding for construction or renovation projects.

Both of these technical assistance providers are currently supporting approximately 45 grantees with planned construction projects. Of these 45 grantees, 15 have completed the National Environmental Policy Act (NEPA) review process and have been approved to proceed with construction. OVC grant funds are typically used to construct office space for victim services staff or temporary housing to serve victims of crime. Examples of planned construction projects include constructing an area of tiny homes (modular buildings) to house male victims of crime, renovating an existing building to serve as a domestic violence shelter, and renovating a garage to provide office space for victim services staff and a forensic interview room.

Training and Technical Assistance to Grantees

OVC Tribal Victim Services Training and Technical Assistance

In FY 2024, OVC's Tribal Victim Services Training and Technical Assistance (T-VSTTA) responded to 470 requests for technical assistance from over 180 TVSSA Program grantees. The contractor supported TVSSA Program grantees in a variety of ways through proactive and responsive training and technical assistance (TTA) focused on grant navigation and programmatic capacity building. Some examples of this support are listed below:

- Tailoring support for developing programs, retaining and training staff, writing policies and procedures, strengthening collaborative partnerships, and addressing identified challenges.
- Conducting Virtual Talking Circles to connect grantees with other grantees and subject matter experts on the topics related to missing or murdered indigenous persons (MMIP) and the power of culture in healing.
- Hosting three Regional Project Implementation Gatherings to convene 136 grantees with their grant managers, and TTA providers for 2 days of interactive sessions focused on TVSSA Program grants. Providing hands-on assistance, TTA providers helped grantees clear compliance hurdles, learn more about their circle of support, and connect with each other.
- Piloting a small, regional gathering on how to develop an MMIP Tribal Community Response Plan.
- Providing biweekly eblasts to grantees to share timely and actionable opportunities, including trainings, resources, and funding opportunities.
- Providing quarterly newsletters to grantees to share stories focused on topics such as grant implementation, MMIP, and responding to elder abuse.
- Developing website topic pages on MMIP and human trafficking.

OVC Tribal Financial Management Center

The TTA services of OVC's Tribal Financial Management Center (TFMC) include a Virtual Support Center (VSC), grantee needs assessments, interactive webinars, virtual open forums, intensive onsite technical assistance sessions, and regional onsite office hours. In addition, TFMC published a robust clearinghouse of financial management resources for federal grants tailored for American Indian/Alaska Native communities, including guide sheets for financial policies and

procedures, tiered micro learnings, job aids, and self-paced e-learnings. Below are examples of key TTA services provided to TVSSA Program grantees in FY 2024:

- Completed 165 customized TTA engagements for Tribal nations across Alaska and the lower 48.
- Hosted five regional gatherings and open office hours.
- Provided 685 participants from 157 Tribal entities (Tribes and designated Tribal organizations) with TTA support to address Tribal Grantee Financial Management Training certification, financial workshops, virtual technical assistance, webinars, individualized on-site technical assistance engagements, site monitoring visits, and programmatic enhanced desk reviews.

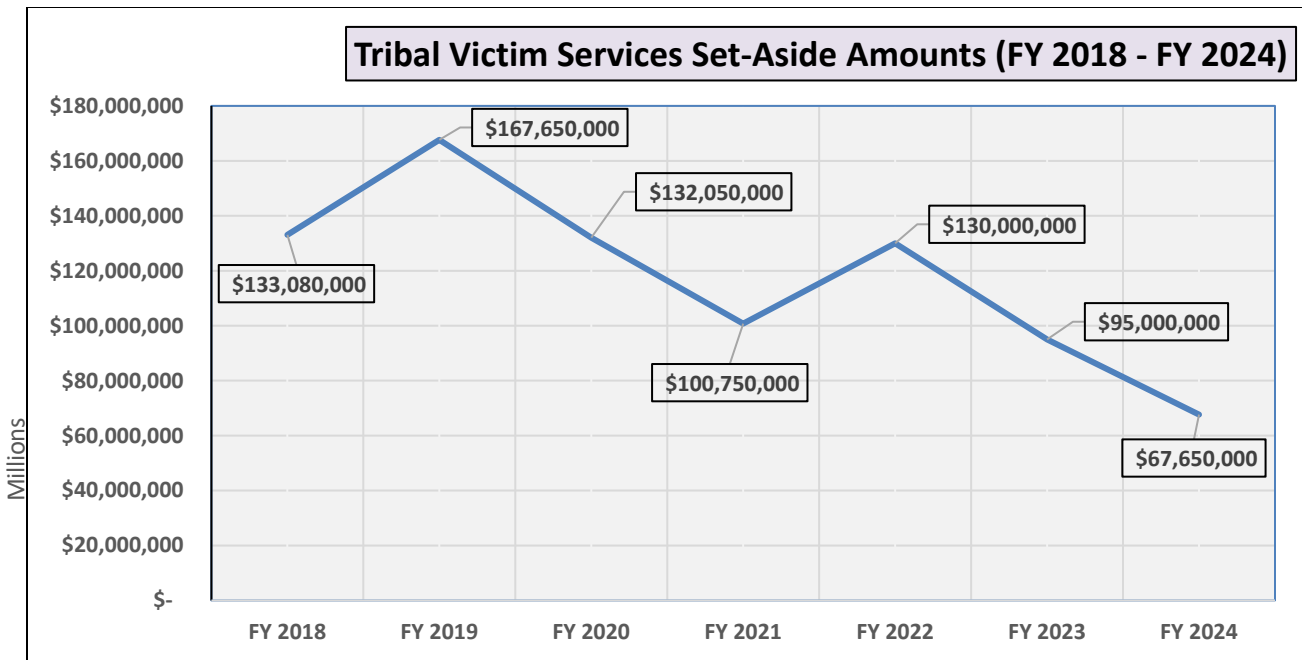

CHANGES TO TVSSA PROGRAM IN RESPONSE TO FEEDBACK FROM TRIBES

OVC has made changes to the TVSSA Program over the years in response to feedback from Tribal leaders received in consultations, listening sessions, and Federal Advisory Committees. These changes are documented in each TVSSA Program annual report. Here is a list of the key actions taken in FY 2024:

- Expanded OVC Tribal Division staffing to 18 staff, including two new deputy directors, to enhance accessibility to technical assistance and support for Tribal grantees. Staff are dedicated to administering the TVSSA Program and other Tribal grant programs. Recognizing the critical need for Tribes to access federal support, OVC's Tribal Division has several staff in remote locations in Alaska, Illinois, Minnesota, and South Dakota.
- Expanded flexibilities in serving families of MMIP by removing the previous 3 percent cap on costs associated with generating awareness about individuals who are missing and clarifying costs for direct services for family members.
- Clarified how TVSSA Program grants might support construction costs and provided more detail about the award conditions and regulations associated with these projects. The following were among the topics addressed:
 - Traditional (stick build or ground up) construction on a case-by-case basis is allowed in instances where it is more practical or cost effective than purchasing and installing a modular or prefabricated structure.
 - Site preparation and installation, facility fencing, sidewalks, and parking areas are allowable costs to TVSSA Program grants.
 - In FY 2025, OVC will release \$25,000 of construction budgeted costs to support preconstruction activities that are necessary to complete the National Environmental Policy Act (NEPA) analysis required for those projects.

ANTICIPATING FY 2025 TRIBAL SET-ASIDE

OVC anticipates that Congress will again create a set-aside for Tribes from the FY 2025 CVF budget allocation. The set-aside may be greater or less than the set-aside from previous years, which will impact the amount of funding available for TVSSA formula awards.

In FY 2025, OVC is proposing to retain many of the TVSSA Program features that have come to define the program, including awarding TVSSA Program funds using a noncompetitive application process that allocates the funds based on the total number of applicants and the population to be served by each applicant’s proposed project. However, OVC is committed to exploring policy changes to reduce the administrative burden for Tribes that receive funding from our TVSSA Program and other Tribal-specific OVC grant programs.

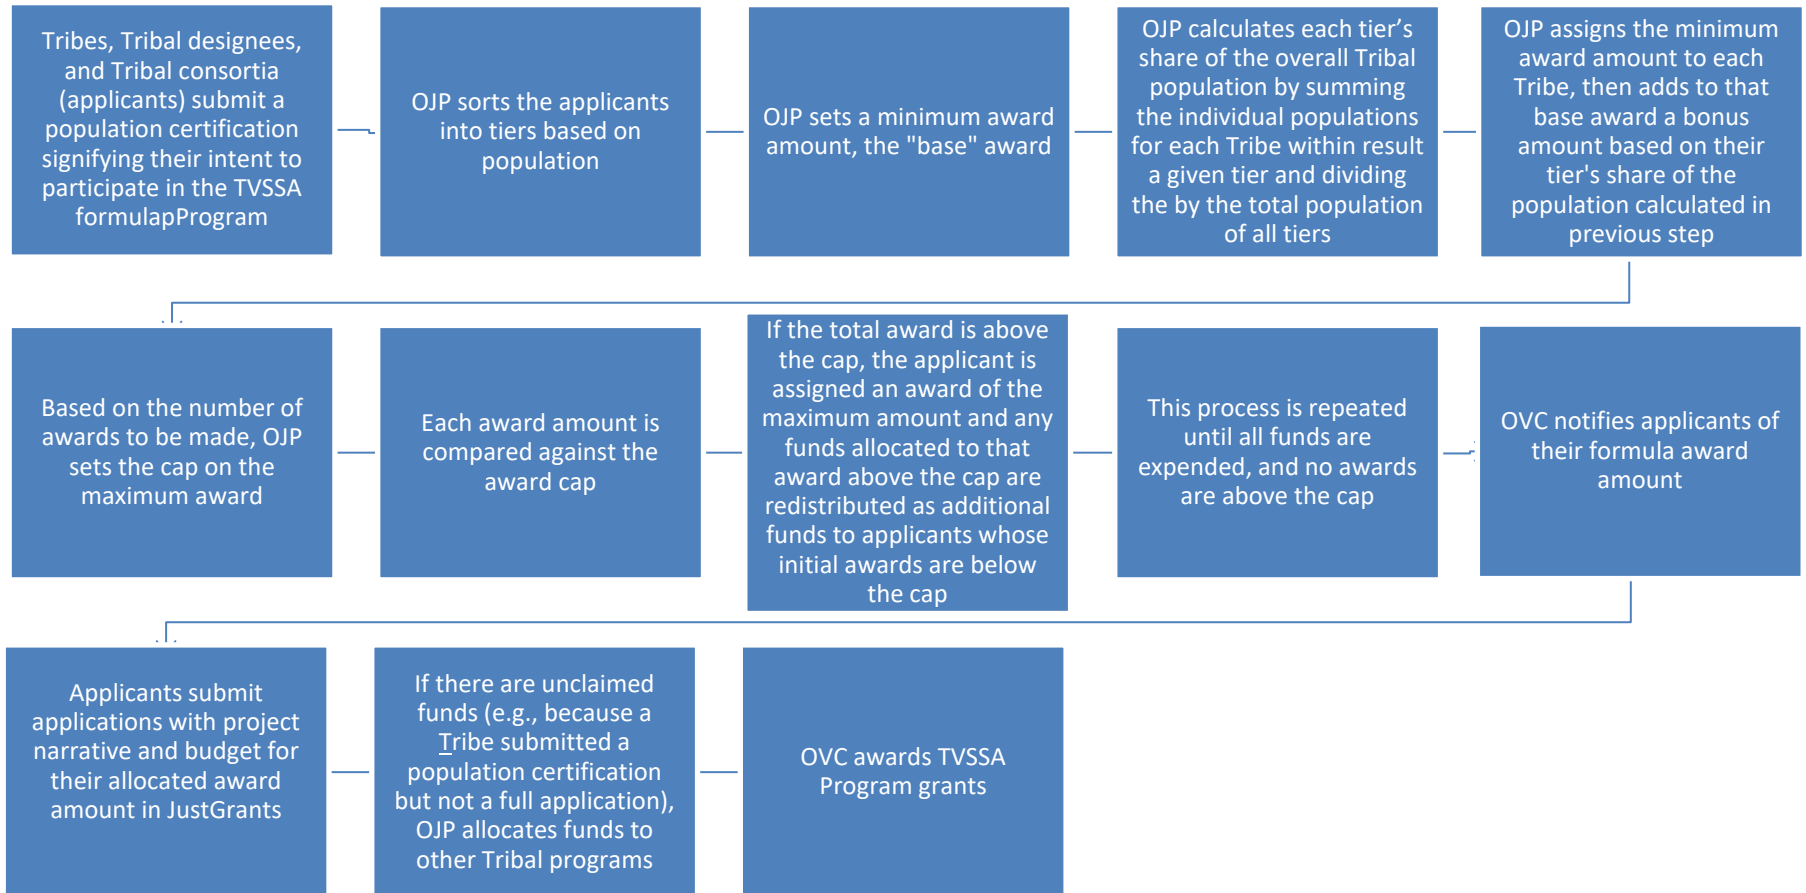

On October 23–24, 2024, OVC will host a virtual Tribal consultation on the administration of the Tribal Set-Aside. [A framing paper](#) has been prepared in advance that outlines two issues on which OVC is seeking feedback from Tribal leaders:

1. OVC’s proposed changes to the administration of the Tribal Victim Services Set-Aside Formula Grant Program.
2. Ways in which OVC can support increased access to crime victim compensation funds for American Indian and Alaska Native victims of crime.

The information received through this government-to-government consultation, and any additional listening sessions conducted in FY 2025, will inform potential changes to the TVSSA Program in FYs 2025 and 2026.

APPENDIX E

Other Programs, Projects, and Initiatives Supported with FY 2024 TVSSA Program Funds

In addition to the TVSSA Program, OVC used Tribal Set-Aside funds to support the following awards, programs, and initiatives in FY 2024.

Specialized Tribal Training and Technical Assistance

Contract Tribal Financial Management Center (TFMC)

The center provides financial management training and technical assistance to OVC's 355 Tribal grantees with more than 700 grant awards, including an assessment of the grantee's financial infrastructure capacity.

OVC PROGRAM	AWARD AMOUNT
Tribal Financial Management Center	\$4,162,255
TOTAL:	\$4,162,255

Specialized Tribal Victim Services Capacity Building and TTA

Contract Tribal Victim Services Training and Technical Assistance Program (T-VSTTA)

Through this program, OVC provides resources to increase the capacity of OVC's 355 Tribal Division grantees to deliver comprehensive and culturally appropriate services to crime victims, their families, and the community.

OVC PROGRAM	AWARD AMOUNT
Tribal Victim Services Training and Technical Assistance Program	\$4,251,909
TOTAL:	\$4,251,909

OJP National Environmental Policy Act NEPA Contract

OVC contributed funds to an OJP-wide contract with the Clark Group LLC, which supports TVSSA Program grantees using funds for construction and renovation projects with NEPA and related environmental and historic preservation compliance requirements.

DEPARTMENT INITIATIVE	AWARD AMOUNT
Clark Group LLC	\$ 1,252,448
TOTAL:	\$1,252,448

OVC's Tribal Construction Technical Assistance Contract

Through this contract, Blue Trident LLC provides construction project management assistance to grantees using TVSSA Program funds for renovation, expansion, modular and prefabricated buildings, and (where permitted) new construction of Tribal victim

services facilities. TTA is provided from the pre- planning to project completion phases and includes assistance development of budget and project timelines, and support with construction acquisition support, among other tasks.

DEPARTMENT INITIATIVE	AWARD AMOUNT
Blue Trident LLC	\$1,482,958

TOTAL: \$1,482,958

FY 2024 U.S. DOJ Coordinated Tribal Assistance Solicitation (CTAS)

Since FY 2010, CTAS has allowed federally recognized Tribes to submit a single application for most of the Department’s Tribal-specific grant award programs to secure the funding they need to develop comprehensive public safety programs. The awards listed below were funded with Tribal Set-Aside funding.

CTAS Program Purpose Area 2: Strategic Planning

OVC is one of four grant-making offices at the Department that contribute to the pot of funding that supports awards made under CTAS Program Purpose Area 2 administered by the Bureau of Justice Assistance. Tribes can use this funding to engage in comprehensive justice systemwide strategic planning to improve Tribal justice, community wellness, and safety including activities outlined in the Tribal Law and Order Act such as strategic planning and developing a Tribal Action Plan.

DEPARTMENT INITIATIVE	AWARD AMOUNT
CTAS Purpose Area 2: Strategic Planning	\$150,000

TOTAL: \$150,000

CTAS Program Purpose Area 6: Children’s Justice Act (CJA)

OVC’s CJA program supports federally recognized Indian Tribes or authorized designees in developing, establishing, and operating programs to improve the investigation, prosecution, and overall handling of child abuse cases, particularly cases of child sexual abuse, in a manner that limits additional trauma to child victims.

OVC- FUNDED GRANTEES	AWARD AMOUNT
Pueblo of Zuni	\$107,359
Nez Perce Tribe	\$450,000
Saginaw Chippewa Indian Tribe	\$443,837
