N/A
<b>Describe any earned media coverage events/episodes during the reporting period.</b>
N/A
<b>Describe any coordinated responses/services for assisting crime victims during the reporting period.</b>
NA
<b>Please discuss the major issues in your state that either assist or prevent victims from receiving assistance during the reporting period.</b>
As COVID continues to plague us this year, it continues to present challenges for victims to receive services due to staff shortages many victim agencies are struggling with. This has resulted in diminished services available across the state and the closing of a couple domestic violence shelters and SANE programs.
<b>Please describe ways that your agency promoted the coordination of public and private efforts within the community to help crime victims during the reporting period.</b>
The coordination occurred by the extension of an intensive victim services awareness campaign. This project intent was to raise awareness about the rights and services available to victims of violent crimes in the state of Indiana directing audiences to visit a website that includes a variety of resources for violent crime victims (by county) such as domestic violence shelters, child advocacy centers, legal services, human trafficking organizations, rape crisis centers, counseling services for victims and providers with sexual assault nurses (SANE nurses). A comprehensive, multi-layered media strategy using video, audio, out of home and digital. The plan is to reach the broad, primary audience of all Hoosiers, with multiple touchpoints to ensure maximum reach and frequency. By targeting all Hoosiers, victims, as well as their family and friends, will be made aware of the resources available. The digital portion of the plan will add an additional layer of coverage for the campaign by reaching the secondary audience more precisely as these platforms have unique targeting capabilities that allow tighter targeting based on research data. Overall, the campaign delivered over 210 million impressions to Hoosiers across all platforms: video, audio, out of home (billboards, transit, sleeves, posters) and digital. At the same time, VOCA funds were made available for victim service providers to complete their own awareness campaign in their community.
<b>Please describe any notable activities at the grantee level during the reporting period that improved delivery of victim services.</b>
Mainly due to COVID, grantee's have developed alternate ways to provide services besides face to face. We made available additional funding to supplemental existing awards to allow agencies to obtain technology needed to continue to provide services safely and often remotely. This included technology such as mobile devices, laptops and virtual platforms. This technology, for many agencies, have increased the request for services and agencies are planning on continuing and enhancing virtual services after COVID.
<b>Please discuss each priority (i.e., child abuse, domestic assault, sexual assault, and underserved) in which VOCA funds have been used to assist crime victims during the reporting period</b>
Child Abuse- During this past year, VOCA funds assisted 30 CASA programs and 2 Child Advocacy Centers (CAC) in Indiana who provide services to child abuse victims. These funds assisted in the personnel costs for volunteer coordinators, GAL attorneys, forensic interviews and advocacy staff. In addition, many agencies receive a prorated portion of operating costs and program supplies. Domestic Violence- VOCA funds assisted 29 domestic violence shelters and 25 non-residential domestic violence service providers in Indiana who provide services to domestic violence victims. These funds were used to support the expense of the direct care staff at these agencies in addition to prorated portion of operating costs and program supplies. Sexual Assault- VOCA funds assisted many dual service agencies (domestic violence), CAC and several sexual assaults specific services providers in addition to eight (8) SANE (sexual assault nurse examiners) programs. Underserved- Many programs that are funded by VOCA serve the underserved victimization types but these are heavily serviced by the 48 Prosecutor Offices and the 12 Law Enforcement units that have victim assistance staff that is funded by VOCA. In addition to the agency types already listed VOCA funds agencies that provides services to victims in all priority areas. These agency types include legal services and counseling programs.
<b>Please briefly describe efforts taken to serve Victims of Federal crime during the reporting period.</b>
N/A
<b>Please identify any emerging issues or notable trends affecting crime victim services in your state during the reporting period.</b>
Since before COVID and exasperated by COVID is the lack of affordable housing. This issue effects the ability of some victims to receive or continue services. The widespread victimization of human trafficking has been emerging. There aren't many service providers trained in this area thus identifying these victims isn't always occurring. The state sexual assaults coalition continues to incorporated human trafficking into their training being provided. This additional component of their services is being partially funded by VOCA funds.
<b>Please briefly outline any staffing retention issues that your victim assistance program has and why these issues may occur during the reporting period.</b>
Our program has had significant retention issues this past year with three (3) staff leaving employment. This accounted for nearly a 30% turnover rate. The feedback given for seeking other opportunities is low salary for the difficulty and load of work that needs to be completed. The State recently implemented an across the board salary adjust in an attempt to stabilize staffing.
<b>Please explain your state process to publicize its victim assistance funding for services to victims of crime during the reporting period.</b>
Our funding opportunities are publicized through the State listserv, on our agency website and sent out to active subgrantees through our grant management system.
<b>Please explain how your state is able to direct funding to new/underserved populations during the reporting period.</b>
In 2020 a one year funding opportunity to fund underserved populations was provided. We have been able to provide a one year extension in 2021 and additional funds for the services to those populations to continue. A few of the underserved populations that were being targeted include LGBTQIA, immigrants, Hispanic, victims of non-violent crimes and victims of drunk driving.
<b>Please explain how your program is able to respond to gaps in services during the reporting period.</b>
The gaps we have addressed this year, is the unawareness that services are available, services in rural areas and victim assistance. We responded by conducting our own awareness campaign as well as making funds available to subgrantees by opening an opportunity for special projects to increase awareness and accessibility to services for victims. We were able to fund 29 projects that included public awareness, updating websites, translation of material, rural service providers, victim assistance funds for housing and development of a Legal Risk Detector.
<b>Please list and explain any outcome measure(s) that are reported to the governor, legislature, or other state entity during the reporting period.</b>
N/A
