NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
No significant change in the number of applications received during the reporting period.
2. **The average length of time to process an application for claim eligibility for compensation**
Count days from time of receipt of application to decision. 90

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. When the application is received, we perform intake of the application by entering into our system. Once everything is entered, we print out an Application Received letter (goes to the claimant), as well as letters that we send out to law enforcement and the County Attorney offices requesting police reports, affidavits, complaints, and any documentation that can explain the crime itself and if charges were filed against the offender. We also send a form to law enforcement that we ask them to fill out that details any contributory misconduct made on the victim's behalf. Once all documentation is received from law enforcement, we then contact the victim to have them schedule a telephone interview. Once the interview is complete, we recommend approval or denial, and the claim gets submitted to the Board for their review. The Board meets once a month to review claims, and a week or two after the Board meets, we send out letters to all of the claimants that notifies them of the Board's decision. It is at that time that the decision is entered into the database.
3. **Does your state have a victim satisfaction survey?**
Yes

A. Number of victim satisfaction surveys distributed during the reporting period. 176

B. Number of victim satisfaction surveys completed during the reporting period. 15

C. Number of surveys that indicated satisfaction with the victim compensation program during the reporting period. 15
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**
COVID-19 has impacted our procedures, however, we have still been able to continue to meet the needs of crime victims during the reporting period.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**
Our office has developed a wonderful relationship with the U.S. Attorney's Office and members of the KBI and FBI, and we continue to maintain that relationship. We are able to communicate with them effectively, and they are extremely diligent in responding to our requests in order to assist Victims of Federal Crime. We presented at a Human Trafficking Working Group meeting, run by the U.S. Attorney's Office and discussed ways to continue efforts to serve Victims of Federal Crime.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**
Our office continues to cross train staff members in order to have more individuals that can answer questions and assist with victim needs. We also now have a full staff available, and each staff member is qualified to work with and provide assistance to each victim we come in contact with.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
Kansas used our VOCA Administrative funds to pay the annual performance fee owed to our software company. This software allows us to enter applications accurately and in a timely manner, and the software also tracks the data necessary for OVC PMT Quarterly reporting. We are extremely satisfied with the performances of this software and how accurate the data currently is because of it, and we continue to use our VOCA monies to pay for this software.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
There were no changes to laws during this reporting period due to COVID-19. During this reporting period, the process for claims that went unable to process was adjusted to allow for victims to submit a request to the Board to reopen their claim rather than submitting a new application. Wage Loss Verification, Wage Loss Calculation, Loss of Support Verification & Calculation, Conflicts of Interest, and Unjust Enrichment of an Offender policies were all drafted and adopted by the CVC Board during this reporting period. Additionally, a process was created to allow for emergency mental health approval for victims of mass violence.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

Kansas CVC staff has developed a wonderful relationship with the above mentioned groups. We are able to utilize POCs within each agency to communicate about victim claims and court cases.

10. **Please explain any public outreach efforts to improve awareness of your program.**

During this reporting period, more than 550 people have been trained by Kansas CVC throughout the state. Since COVID-19, outreach has been conducted via webinar based trainings. This has afforded the ability to reach many more trainees than in-person trainings and we expect this number to continue to increase over the next year, as well.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

Performance measures for our state report mirror the performance measures that OVC requires.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

Kansas CVC appreciates the annual VOCA grant, the ability to use some of the administrative funds for software upgrades, and the continuous helpful assistance we receive from our grant manager.
