## NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**

There was no significant change.

2. **The average length of time to process an application for claim eligibility for compensation**

Count days from time of receipt of application to decision. 85

Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Applications are received M-F via mail or electronically via a webform. The start date is the date that the application is received by the CVC Program. Incoming applications are accepted and triaged by front-line staff with receipt acknowledgment letters and requests for initial documentation sent out to applicants before transfer of the claim to a specialist for an eligibility determination. Law enforcement reports are also requested at this time for review by claims specialists. Once reports are reviewed, claims specialists can make an eligibility determination. This eligibility determination may change at a later date if there is non-cooperation from the applicant or other disqualifying information comes to light.

3. **Does your state have a victim satisfaction survey?**

No

4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**

COVID-19 and the need to maintain a safe social distance and remote work environments caused significant delays in claims intake and processing as our program was unable to maintain efficient workflows. Staffing challenges, including prolonged vacancies and the need for staff to take extended medical leaves of absences presented additional challenges.

5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**

The Wisconsin Crime Victim Compensation Program regularly provides informational trainings to a variety of stakeholder agencies and victim services providers throughout the state, including Federal VW and Crime Response staff and community-based victim service providers that serve tribal communities. Many of the community-based providers receive VOCA or VAWA subgrants and are required to attend trainings about various victim service programs and resources. CVC staff is a component of all of these mandatory trainings.

6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**

There was nothing during this reporting period that improved the process of victim compensation services in any notable way. Much of the process improvement efforts this period were focused, out of necessity, on maintaining baseline services and standards by adjusting workflows within challenging staffing and funding constraints. Significant efforts also went into the build and configuration of a new CVC Claims Processing database that will be implemented in 2022.

7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**

VOCA Administrative funds were used to fund the salaries, fringe, and operational costs of grants staff within the WI DOJ Office of Crime Victim Services. These funds were allocated in a pro-rated manner corresponding to the time carrying out work related to the VOCA grant. These roles act as programmatic grants managers providing technical assistance and grant program oversight and assistance to VOCA subgrantee programs; financial grants specialist managing fiscal reports, desk monitoring, payments, and compliance; training coordinator staff ensuring that subgrantees receive comprehensive information regarding Crime Victim Compensation, Victim Rights, and many other victim service programs and resources throughout the state. VOCA Admin funds also supported the technological needs of OCVS staff via the administration of the Egrants grant management database and providing technological support through our Bureau of Computing Services. It also supports two significant grants to out statewide Sexual Assault Coalition and Domestic Abuse Coalition, who also provide technical assistance to their VOCA subgrantee membership.

8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**

While no official policy changes have been implemented yet, many Crime Victim Compensation staff participate in the Office of Crime Victim Services Racial Equity Workgroup. This workgroup explores the disparate impact of existing policies, procedures, forms and documents; challenges biases built into our work; and suggests small, but impactful changes that can be made to address inequities or barriers. One change that we're exploring is to remove the SSN field from our initial application; it is not a required field and can have a chilling effect on undocumented victims, so there is no compelling need for it to be there.

9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

Crime Victim Compensation staff regularly communicates directly with District Attorney's offices and Victim Witness staff in order to assist victims to coordinate the documentation of their financial losses due to a crime. By sharing information, with the victim's informed consent, CVC staff alleviates some of the stress and burden of documenting losses that would otherwise fall on victims directly. CVC staff also coordinates with VOCA State Administrators to engage in training advocates on the fundamentals of CVC, how to apply, and where to go with questions on a routine basis throughout the year.

10. **Please explain any public outreach efforts to improve awareness of your program.**

Crime Victim Compensation staff conducts multiple trainings for advocates statewide on the fundamentals of CVC, how to apply, and where to go with questions on a routine basis throughout the year. These trainings are well attended and attendee feedback is requested to continually improve outreach efforts. Staff also trains on the fundamentals of CVC at regular Victim Witness conferences and trainings.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

The no-cost extension was incredibly helpful and is appreciated. The past year and a half has presented incredible challenges and limitations. This extension will allow us to focus on the most immediate needs and ensure that we can fully implement and tailor some of our larger, long-term projects to fully meet the needs of this program.
