NARRATIVE QUESTIONS

1. **Please explain any significant change in the number of applications received during the reporting period.**
 Pennsylvania experienced an 8% increase in the number of claims during this reporting period. For Federal Fiscal year 2021-2022, Pennsylvania received 6,238 applications and for Federal Fiscal year 2022-2023, a total of 6,732 applications were received. In 2023, Pennsylvania started doing more education and outreach. Legislation was passed in September 2022 that expanded eligibility.
2. **The average length of time to process an application for claim eligibility for compensation**
 Count days from time of receipt of application to decision. 88

 Please explain your state's procedure for processing an application for claim eligibility, from time of receipt of application to decision. Pennsylvania counts average processing time from the date the application is received until a first-time decision is made to either pay or deny. If after 60 days, the claimant has failed to submit proper documentation, the claim can be placed into an inactive status, which does stop the counting for average processing time.
3. **Does your state have a victim satisfaction survey?**
 No
4. **Please describe any emerging/major issues or notable trends that were encountered in your state that had an impact on your program's ability to meet the needs of crime victims during the reporting period.**
 Pennsylvania continues to strengthen our outreach to legislators and citizens to better educate them on compensation and help them understand that no state tax dollars are used to fund the program. We continue to try and find new ways to conduct this outreach.
5. **Please describe in detail efforts taken to serve Victims of Federal Crime during the reporting period.**
 Pennsylvania continues to work with federal partners to ensure crime victim needs are met. Cross border issues continue to be a discussion topic when the crime occurs in two (2) or more states.
6. **Please describe any notable activities during the reporting period that improved the process of victim compensation services.**
 During this reporting period, Pennsylvania continued to translate documents in various languages. The languages include Spanish, Chinese, German, Korean, Russian, Vietnamese, Portuguese, Turkish, and Ukrainian. During this reporting period, the Program has been moving towards going paperless internally. Faxes that are received by the Program are uploaded and attached to the claim directly into the case management system. Emails that are received are also uploaded and attached to the claim in the case management system. Postal mail is scanned and uploaded into the case management system. Portals are being developed for claimants, victim advocates, and providers to be able to upload documents in to the case management system.
7. **Please describe in detail ways in which your state used VOCA Administrative funds and the impact of these funds on the state's ability to improve victim compensation services during the reporting period.**
 The administrative funds are used to partially support the salary and benefits of two staff persons. One of these individuals, a claim specialist, works directly with the Victims Compensation Assistance Program claim process. This process includes determination of eligibility, the verification process, making decisions and the preparation of recommendations. This staff member works directly with victim service groups, service care providers, law enforcement agencies, Clerk of Courts, District Attorney Offices, and victim/claimant compensation claims received daily. The second position provides clerical support for the VCAP. This position assures that all data and bills for incoming claim forms are entered daily into the claim processing system and designates Emergency Awards as a priority status. This position also assures that all incoming mail is opened and logged, mails acknowledgement letters to victims and claimants, sends notices of decision to victims, claimants and the victim service agencies, and provides assistance to other staff with administrative responsibilities such as filing and copying.
8. **Were there any laws, initiatives, or policy changes in your state regarding victim compensation during the reporting period? If yes, please briefly describe them and their impact.**
 During this reporting period, there were no changes. However, Pennsylvania is reviewing the current Regulations for changes as a result of the legislation that passed in September 2022.
9. **Please describe system-coordination efforts with prosecutors, law enforcement, courts, U.S. attorneys' offices, tribal systems, State VOCA Victim Assistance Coordinator, or other key personnel within the criminal justice system in your state to reduce barriers to victims who may apply to receive victim compensation.**

The Victims Compensation Program Administrator and State VOCA Assistance Administrator are both within the same office in Pennsylvania. There is a very close working relationship. This is an ideal working situation which quickly addresses any barriers that may arise. Victims compensation also works closely with partners to ensure barriers are addressed immediately. Through committee structures at the Pennsylvania Commission on Crime and Delinquency, staff have access to Criminal Justice Advisory Boards which have the ability to coordinate with local law enforcement, courts, etc. The PCCD, Office of Victim Services also has a very good working relationship with the Pennsylvania District Attorneys Association to quickly address barriers that may arise with prosecutor offices.

10. **Please explain any public outreach efforts to improve awareness of your program.**

Pennsylvania continues to promote the victims compensation program using its own website, the app, newsletter articles, pamphlets, brochures and various other outreach such as presentation and conference participation. Staff participated in legislative community events in which information related to Victims Compensation was shared. Quarterly meetings have been conducted with VCAP staff and the victim service providers.

11. **Please list any other outcome measure(s) that are reported to the governor, legislature, or other state entity that have not been reported in this submission. Provide the actual measure(s). The data may be reported separately in your progress report.**

The Program submitted a State Performance Plan for Fiscal year 2022-2023. The following performance measures were reported: Total number of VCAP claims received annually (12,977); number of individuals receiving VCAP benefit in the year (8,648) Unique, non-FRE, claimants receiving VCAP funding (2,825); Average processing time for claims (12 weeks); total sexual assault counseling claims paid (402); total VCAP benefit paid (\$13,782,169); and total non-FRE VCAP benefit paid (\$9,408,646). In years past the Program has reported the percentage of satisfactory surveys received. However, we receive a low return rate of surveys (about 4% that we send are returned). The survey has been revamped and is now available online. As a result of this work and a low response rate for this reporting period, survey results are not available. The Program will continue making efforts to market this new survey for completion.

12. **Please provide any additional comments that are helpful to improving the Victim Compensation state and/or federal program.**

None at this time.
